

## Manual for River Raid 2017 game

### Game instructions

Viewing from a top-down perspective, the player flies a fighter jet over the River. The goal of the game to earn as much points as possible by staying alive and shooting at enemies. Your jet has a limited amount of fuel that you can refill by using fuel depot. Avoid collisions with the banks of the river, enemies and avoid enemy's attacks (missiles, shoots).

### Controls

Use arrows to move the player's jet and Shift button to shoot.

### NPC objects

The player scores points for shooting enemy tankers (400 pts), helicopters (100 pts), fuel depots (300 pts), jets (500 pts), bridges (500 pts). The jet refuels when it flies over a fuel depot. A bridge marks the end of a game level.

### Usage

Run and play.
